PRAISE & PRAYER

Praise: two churches took the work on for support.

Praise: how God is doing a work for various family and loved ones ❤️

Prayer: that God will prosper the work of new PTSD chapters, on bases and in churches. In most churches there are usually a number of struggling people needing this, and many from the community who are in a dark place can be reached also!

Dear praying friends,

"Those that be planted in the house of the LORD shall flourish in the courts of our God." (Psalms 92:13) To flourish means to bloom like a flower, to open up and fulfill its purpose—to yield scent, scenery, and seed. How wonderful when a soul that has closed up due to sin, suffering, or Satan gets roots in God's Word, learns through Christ how to trust, and then really blossoms, serving in a good church!

In November I spoke in Texas and mentioned a ministry we spearheaded on a large Marine Base. A young man told me after, that in that very ministry 3 of his friends had been saved and their lives changed! I then called the Point Man who leads the ministry there, and he said they recently had to double the early-morning meetings, with 300 attending *each meeting!*

OPERATION N.A.A.M.A.N.

It has been so encouraging to be at all these bases, seeing America's heroes blooming in churches, with their young families.

Since writing last, I have been to **Fort Bliss, Fort Huachuca, Ft. Carson, Petersen AFB, and Davis-Monthan AFB**. All of these stops are pioneer projects, with a strategy of reaching, training and networking people—both military and church. That's Phase A. Phase C is when a working ministry is handed over. Space will not allow to detail God's help at each town!

Pray as we try to get the Gospel to these young hearts when they are the most *vulnerable* and the most *valuable*. They either go hard after God, or the Devil. If they go after God, the influence and leadership they exert for the cause of Christ is phenomenal.

PTSD Ministry

I have counseled many people suffering with Post Traumatic Stress lately; a couple weeks ago I was with a veteran, who as a boy had grown up with the shame of starting a fire at age 5, and in horror seeing his sisters perish in the flames. Who then hit the teen years and went to Vietnam; where 2 days into deployment he saw his best buddy killed. Then his medic was blown up and died in his arms. We went together to the "Man of Sorrows" who wiped away our tears. "The bud is blooming" and he now helps in PTSD ministry.

PTSD Ministry has proven to cut through many of the objections and red-tape that we normally encounter. Please pray as we point many closed-up people to the beautiful Lily of the Valley.

Bro. Kevin

Ft. Bliss: The Major who took me on a tour here suffers major Combat PTSD. Sometimes the key Chaplain doesn't see the need, nor the free offer of Biblical help. God will open the door.

This former Marine came up to me and said that his 3 battle buddies had been saved and changed at the Camp Pendleton ministry!

Chosen vessels:

The Point Man on Camp Pendleton with his wife, and Marines gathered to hear the Word of God.

THANK YOU FOR GETTING BEHIND US!
